There are many Granite & Marble yards in the Ventura County & LA area.
These are a few with which Pacific Stoneworks has an established wholesale relationship with.
When you find the stone that you like, *please have the sales person put your name* on the actual slabs,
or follow the written reservation system of that yard.
Some yards are open on Saturdays, but it is best to call and confirm.

These yards are listed in order of proximity to Pacific Stoneworks.
